BILIMIND DESKTOP

DROP IN YOUR FILES. GET A COURSE, CHECKED AGAINST THEM.

The problem

EXAM IN 3 DAYS. A FOLDER OF SLIDES. NO PLAN.

Last year's paper is in there somewhere.

Making questions, flashcards and a schedule takes **hours you don't have.**

The solution

ONE FOLDER. ONE SENTENCE. ONE COURSE.

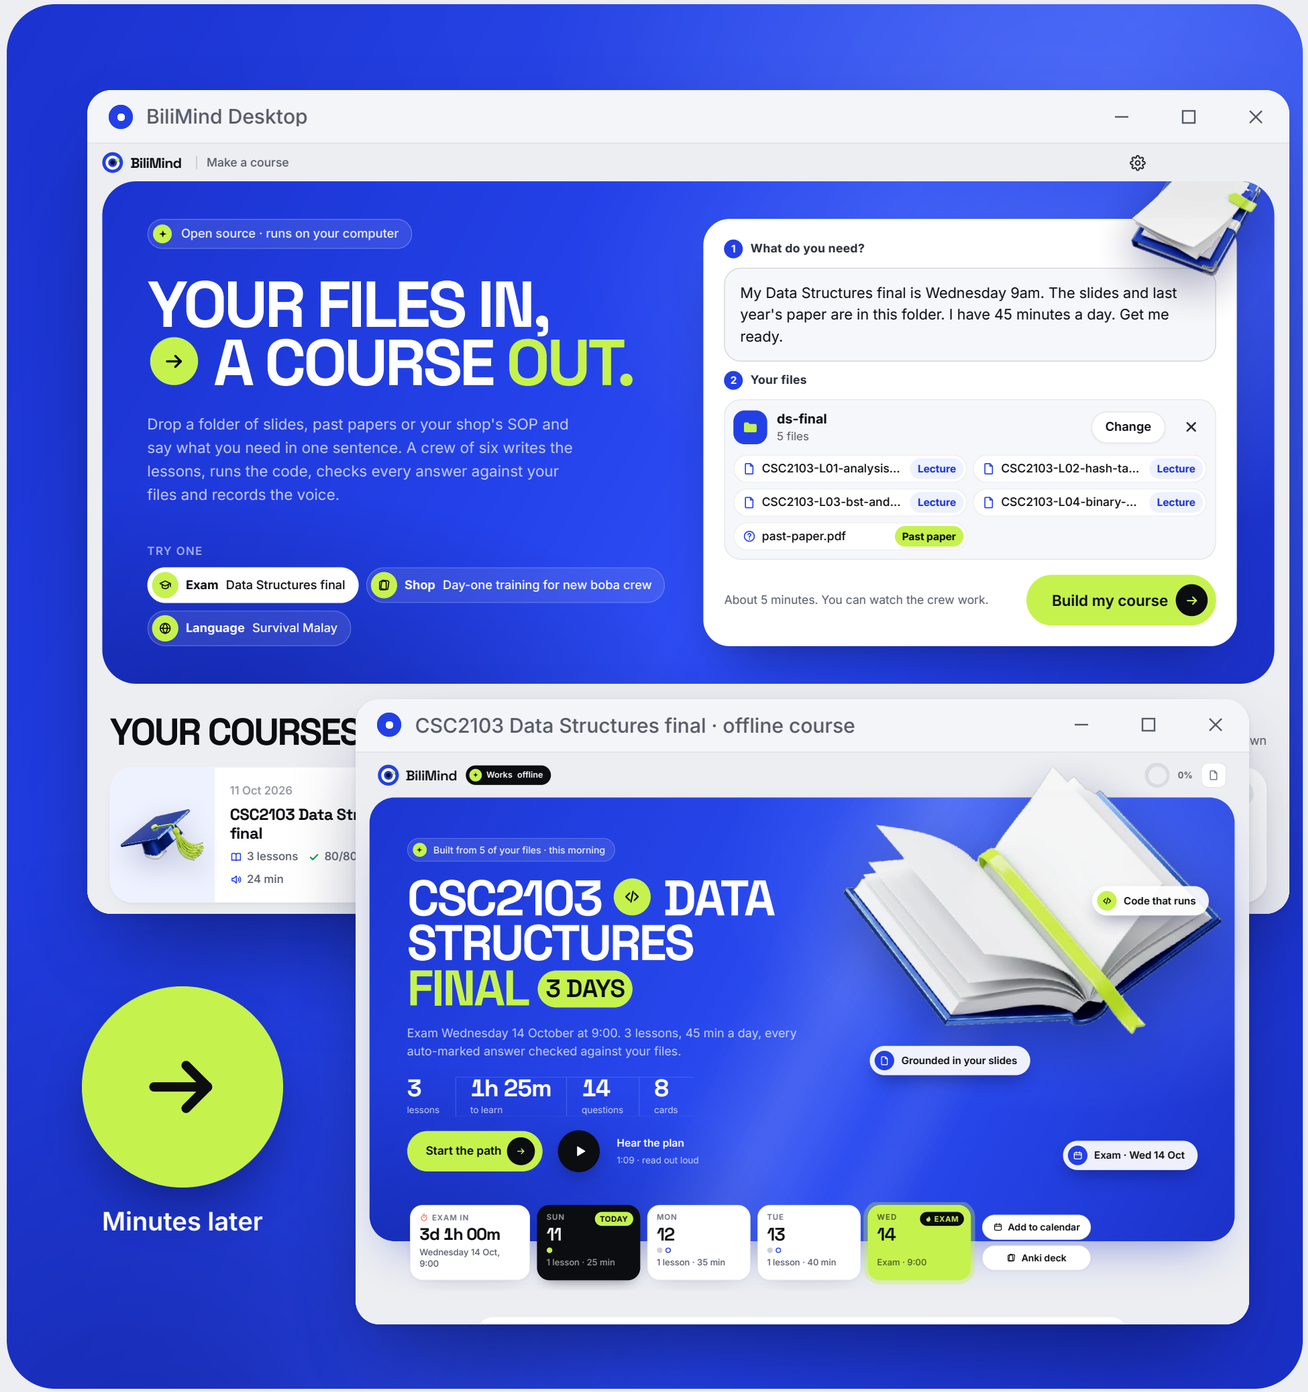

BiliMind Desktop turns your own files into a **narrated, checked course** on your laptop, with your own AI key.

1 What do you need?

"My Data Structures final is Wednesday 9am. The slides and last year's paper are in this folder. I have 45 minutes a day. Get me ready."

Build my course

How it works

A COURSE TEAM IN ONE APP.

LEAD

Reads your files, weights topics by last year's marks, fits the plan to your days, cuts what the paper never asks.

WRITERS — in parallel

- Lesson 1 · hash tables
- Lesson 2 · search trees
- Lesson 3 · heaps

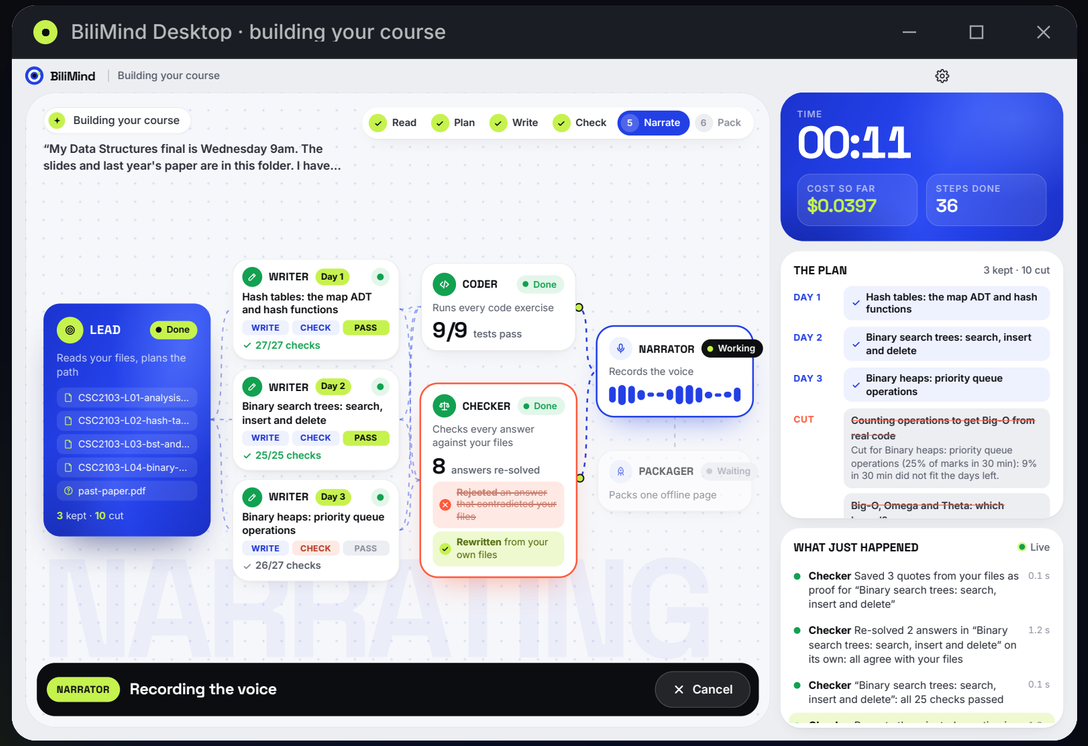

CODER + **CHECKER**

Runs every code exercise.

Re-solves every answer against your files, rejects and rewrites wrong ones.

YOU GET

- Narration
- Anki deck
- Calendar
- Plan

How we used WorkBuddy

WHERE WORKBUDDY CAME IN.

22.2%
staff attrition in Malaysian retail and hospitality (Aon 2025)

51%
of students deterred by AI errors (HEPI 2026)

01

DEEP RESEARCH

Idea validated with WorkBuddy Deep Research.

02

SLIDES CREATION

Our first pitch deck: generated in WorkBuddy Slides Creation.

03

HEAD TO HEAD

Plain WorkBuddy vs BiliMind on the same student request: a plan, but no slide citations, tested code, narration or exports.

04

SKILL + EXPERT TEAM

BiliMind also ships as a WorkBuddy skill and Expert Team, validated with WorkBuddy's own validator.
